

## Installation Instruction

1. **Water:** It needs two water-galvanized pipes. One is for cold water, the other for hot water. And they should be set on wall, 350mm above from ground. And a device for cutting water should be placed on wall.
2. **Power:** The power should be 220V/50Hz, single-phase, 10Amp. The socket should be the waterproof, which is designed especially for bathroom and it should be placed 350mm above of ground.
3. **Drain:** The drain-pipe, which radius is within 0 to 40mm, should be set on at the centre of the drain. (According to the diagram)

SIZE: 1060X1060X680  
(With 7 massage jets)

1. Air regulating switch
2. Gas drive switch
3. shower head
4. convert switch
5. water supply switch/temperature regulate switch
6. faucet
7. drain machine
8. massage spray mouth
9. water circulation net
